### Hands-On Renal Ultrasound Refreshment Course

ROOM C

For nephrologists in training

- A theoretical update on the indications and possibilities of renal ultrasound, open to all.  
- Two hours of "hands on" exercises on volunteers and patients in small groups under the guidance of experienced sonographers, open to 20 principle "first come first served". Possibility to subscribe in advance.

- Models to practice the placement of central lines and dialysis catheters.

By the end of the course, participants will be able to detect common and less common abnormalities of the native and transplant kidneys, measure renal resistive index, and will have updated their skills on US guided placement of central lines and kidney biopsies.

**Organization:** SGN/SSN ultrasound commission

**Key audience:**

Any nephrologist (experienced or in training) who is interested in renal ultrasound can participate.

Some basic experience is recommended, but not obligatory.

**Instructors:** PD Dr Belen Ponte, PD Dr Spyridon Arampatzis, Dr Felix Burkhalter, PD Dr Menno Pruijm.

**Language:** English

**Costs:** free (first year)

**Credits:** 2 for theoretical part, 2 for practical part
